Arya Adinul Fadlan

Software Engineer

I am a passionate Frontend Engineer with a strong curiosity for backend development. I am proficient in CSS, TypeScript, Next.js, React.js, Redux, and Vue.js, as well as backend technologies such as Rust, Golang, GORM, PostgreSQL, Docker, and Redis. I have 2 years of professional experience working as a Frontend Engineer. I am currently deeply in love with Rust and Golang.

WORK EXPERIENCES

Frontend Engineer (TypeScript, React JS, Redux)

PT Visi Prima Nusantara

April 2023 - August 2024

Developing a digital school system using React JS that enhances school administration efficiency and facilitates access to academic information for over 350,000 students and 13,000 teaching staff.

Frontend Engineer (TypeScript, React JS, Vue JS)

PT Olsera Indonesia Pratama

September 2022 - December 2022

Developing an admin dashboard based on React JS and Vue JS that enhances data visibility and analytical reporting, improving reporting accuracy with better API integration.
